

**A Profound Thank You**  
and  
***Special Offer***

**For all our Corporate & Private Clients**

Thank you for the outpouring of love for the loss of my mother Lydia this past year.

Your touching cards, flowers and well wishes were so very much appreciated. My mother was always welcoming and uplifting and was the kindest person I have ever known. She lived her faith daily and inspired me with her kind words and her actions towards others. As several of you have shared, moving forward from your losses and this loss for me was the most challenging endeavor I have ever encountered. Together, we march forward to honor our loved ones' inspiring legacies with deep gratitude putting our very best foot forward.

Mother was a role model to me and to many of you; my amazing, loyal & eager-to-learn clients . . . by her healthy habits, her always choosing homeopathic and herbal remedies over medications . . . her thriving and far surpassing an inaccurate medical diagnosis. She was an overcomer, loved life, and cherished each day!

At the end of her journey, Mother was within just two months of reaching her prized goal of her 100th birthday.

Excitedly, I look forward to seeing many of you in the new year to ignite your goals of a healthier, more energetic, and balanced you.

***The Special Offer***

2020 Private Program Special:  
**"LIFE JumpStart Package"**
